Galanta 5 includes the sum of 125,718.6 for medical charities relief, and reaconation expenses, which stringly are relative electroal division on major charges, but are charged accreting to not manual value upon the electronal divisions comprised in the dispensery districts, which continue on an account four electronal divisions conti-

The total amount in Column 5, accounting to \$12,566 L, may be thus stated:-

HI.—In propering the SECHARY of Unions, cortin columns, which are explicable only to electrical emissions, have been certified, and other columns introduced, shawing the effect of union rating on the related division with the highest paradiag of expendituses and also on that with the lowest. Columns to show the average weathy out of intentionation and on-liver rated for each union are also introduced into the Succession.
